

GROW in Member Care: Lead in the Great Commandment (Matt. 22:37-40)

Goal - What would it look like to lead your group to grow in member care this year?

Example: Find ways to know one another better – families, concerns, praises, etc.

Reality - Where are you currently? What is the current status in group?

Example: We rarely have time to follow up on prayer / life concerns inside group. And we forget to follow up outside of group.

Obstacles / Options - What may be keeping you from reaching your goal? What are different options to achieve your goal? “See the C”. What is option C?

Example: Obstacles: Don’t know what is going on in people’s lives or how they feel cared for. Options: Find ways to connect group members outside of group – whether in person or via text, etc.

Way Forward - What are some of the next steps? Who will carry out these next steps? And when? Will you “do” or will you “delegate”? Do you need / want input from staff?

Example: Set up a group text/email/groupme, etc. Or divide and “conquer”: pair people up to connect with one another during the week to follow up on prayer requests.
